

## Computer Science Postdoc Networking Evening Lightning Talks schedule

Speaker	Talk Title
Alessandro Ronca	Capturing temporal patterns in learning applications
Andrew Ryzhikov	How to meet if you have a map but don't know where you are
Antonio Norelli	Captioning images using a vision model that has never seen text and a text model that has never seen images
David Tena Cucala	Decoding Datalog Knowledge from Graph Neural Networks
Joey Bose	Geometric Generative Models: from theory to drug discovery
Martin Bullinger	Approaching collaboration algorithmically
Pian Yu	Trust-aware motion planning for human-robot collaboration
Rui Zhao	Perennial Data Terms of Use Policy for User-Empowered Decentralized Web
Tomasz Was	The Squared Kemeny Rule for Averaging Rankings

### Keynote

Georgina Ferry	A women's history of the Computing Laboratory
